

# Explore the Underwater World

To become an accomplished scuba diver, you must first learn the fundamentals of diving and then build on the basic skills. During these five sessions you will master all of the skills necessary to become a certified scuba diver. The training offered is the PADI, Professional Association of Diving Instructors, system of training, the most popular in the world. Upon completion of your performance based training you will be eligible to attend your open water certification dives with *The Tritons*, one of the oldest and most successful scuba organizations in the Chicago area. Make sure you have your swimsuit, towel, mask, snorkel, fins, and boots and be prepared to have some fun! Students 12-18 are also welcome but must be approved by a parent or guardian.
