### *PADI Advanced Open Water Diver Course Details*

Move up and experience real adventure with the PADI Advanced Open Water Diver course. As you step beyond the PADI Open Water Diver level, you make five dives and have the opportunity to try some of diving's most rewarding and useful specialty activities, such as deep diving, digital underwater photography, wreck diving and much more. These skills make diving much more than underwater sightseeing. Plus, the Advanced Open Water Diver course takes you one step closer to **Master Scuba Diver** – the ultimate non professional certification in recreational diving.

With your *Triton*/PADI Instructor you complete the deep and underwater navigation Adventure Dives. These dives boost your confidence as you build these foundational skills. Then, you will do three additional Adventure dives to complete your course. You will go diving at night, polish your navigational skills, learn about wreck diving or other dive opportunities – all during your PADI Advanced Open Water Diver course.
