**SUNDAY OCTOBER 21**  
**RIDE THE OLD RAIL CARS IN EAST TROY WI**  
**A NEW FALL EVENT!**

I thought a new and fun fall event might be in order. Let's visit the East Troy Electric Railroad and take their short (about 10 miles) trip through the fall foliage to Mukwonago WI for lunch and shopping, and then come on back to East Troy. Both these towns are vintage small town Wisconsin, and the business has resurrected some old electric rail cars for us tourists to have some fun. I have memories of the old South Shore Railroad, we might be on one of their cars.

Price (for the train alone) is \$12.50, \$10 for seniors 65+ (do we have any?), and \$8 for kids under 11. East Troy is about 15 miles due north of the town of Lake Geneva, can easily get there in 2 hours for most of us. It is home to Alpine Valley.

I propose a Noon train shove-off, and return from Mukwonago on the 3 PM or 4 PM (last one back). And perhaps have diner in East Troy. We can finalize the times later. Think about it and let me know, their website is: [www.easttroyrr.com](http://www.easttroyrr.com)

**GREATER CHICAGO GOOD DEPOSITORY**  
**SATURDAY MORNING, NOVEMBER 10**

I have reserved 15 spots at the Food Depository for the 9 AM shift on November 10<sup>th</sup>. Come help pack non-perishable food for later distribution to homeless shelters and other places that serve the needy. Come and join us at this fun and rewarding event, especially if you have not been down there before with us. It is on the near SW side of the City, just off Pulaski and south of the Stevenson Expressway.

More detail to come at future meetings, this one usually books up quickly so sign up when you can. Note that this was the only slot in November I could find that does not conflict with other Triton events. I would prefer to sleep in and grab the PM shift, but it was not available.

**\*\* LAKE GENEVA DIVE\*\***  
**SUNDAY OCTOBER 7**  
**\$35, DINNER INCLUDED**

The local season finale is getting closer. This is a fun and easy way to close out the local dive season, especially for our newer divers. There isn't a easier charter dive to make. We will meet in Williams Bay on the north shore of Lake Geneva for a 10 AM shove-off and make a 2 tank dive aboard Ralph Ripple's "Divers Delight", a very good charter service. Tank rentals are a mere \$7, with weights free (unless you lose 'em!). We exit the water about 1 PM and adjourn to the house for a stressful afternoon of eating pasta, watching football, and walking down the lake. As always, first paid, first reserved.

\$35 for Tritons and \$45 for guests. Tank rentals \$7.  
Sign up early and often, this is a fun event and easy divin'.

A pioneering underwater explorer and film maker, Jill Heinerth has dived deeper into caves than any woman in history. Jill's accolades include induction to the inaugural class of the Women Diver's Hall of Fame, being named Canadian Technical Diver of the Year and being recognized as a Fellow of the National Speleological Society and Explorer's Club. Jill was recently awarded the National Association for Cave Diving Conservation award. In 2011 she received the Wyland Icon Award recognizing her passion for protecting the underwater world. Teaching people about their interconnectivity with the natural world, Jill's current project, titled "We Are Water" combines documentary filmmaking, live presentations and social media.

**WE ARE WATER PROJECT - A presentation by Jill Heinerth**

For the first time in history, fresh water has become a finite resource. Many experts agree that, without significant changes in water policy, wars of the 21st century may be fought, not over oil, but for control of clean water. We Are Water is an imaginative, entertaining, and enlightening documentary, illustrating the fragile relationship between our planet's endangered fresh water resources, and the ever increasing needs of our expanding population.

**Jill Heinerth**

Stop in to the Helix 8th floor Auditorium on Monday August 27th @ 6:00 for Jill's presentation. A \$10 Donation is requested at the door

World renowned underwater photographer Jill Heinerth's current endeavour, WE ARE WATER PROJECT, is a documentary about the current world water crisis and need for conservation and smart water management. The project will also have out reach programs to schools and public forums. Jill will speak about the film before the video presentation.

Artists Michael Angelo Gagliardi and Sam Gillis will be raffling off some of their artwork at the event.
